

Division of Space
VIP+

Environments influence the attitudes of the people who are in them. Good ones will foster innovation, productivity and communication. Poor ones will be a drag on those things. VIP+ Divider Systems from Corona Group combine glass, porcelain, decorative glass, acoustic panels even metal mesh into architectural elements that open and close off areas.

They empower your people by helping them to focus, capture and share ideas more efficiently. They can make your environments work harder. And be more agile. Here are some of the ways it's done.

VIP+ Sliding Wall Panel System

Available as Top-Hung or Bottom Rolling Systems in Glass, Porcelain, Acoustisor, Fabric or Cork.
